Training Course Cultural Diplomacy within Erasmus+

KAI Erasmus double action project

2022-3-EL02-KAI53-YOU-000102208

Introduction

Cultural diplomacy is the art of fostering understanding, cooperation, and goodwill between nations through the exchange of cultural expressions, ideas, and values. In a rapidly globalising world, it has become more critical than ever to bridge cultural gaps and promote intercultural dialogue. Greece, a country steeped in history, innovation, and rich cultural heritage, serves as the perfect backdrop for this immersive and enlightening learning experience.

This training course is your passport to exploring the diverse dimensions of cultural diplomacy, delving into its significance in today's interconnected world, and equipping you with the knowledge and skills needed to become a catalyst for positive change in your community, institution, or organization. This double action Training Course is granted by the Erasmus plus Programme, supported by the greek National Agency INEDIVIM and organised by the NGO Horizons For Youth GR.

Why does Cultural Diplomacy matter within Erasmus+ and youth work?

Cultural diplomacy tools offer young people opportunities to learn, connect, and engage with diverse cultures, contributing to their personal growth and the promotion of peace and understanding on a global scale. Incorporating these tools within youth work helps prepare the next generation to be culturally sensitive, globally aware, and effective agents of positive change.

Why is it crucial to speak about Cultural Diplomacy in 2023?

In our digital age, social media and online platforms play a crucial role in cultural diplomacy. These tools enable young people to connect with peers from around the world, share their own culture, and engage in cross-cultural discussions, promoting intercultural understanding.
